FACT FILE

Fact File	
Body construction	Die cast LM6 aluminium - powder coated
Front glass cover	4mm heat tempered safety glass.
LED type	Luminus or Lumileds
Lighting performance	132W producing 19272 lumens at source. 4000K or 5000K 80CRI minimum If 3000K is required – reduce outputs by 8%
Supply voltage	230V AC
IP rating	IP 65
Installation data	Available

Lumen values are as measured at source - on the PCB - not exiting light fitting.
Values are subject to change at any time and without notice.
